

Gain A True Competitive Advantage By Continuously Raising the Bar on Quality

Manage Your Quality Control Data Effectively While Lowering Costs With Merit Solutions' EQM for Microsoft Dynamics GP

For organizations who compete on quality, Merit Solutions' **Enterprise Quality Management (EQM)** provides the ability to track tests throughout the life cycle of a process and to implement and activate controls based on the test results.

- Effectively manage your quality control requirements by defining and customizing tests, procedures and steps according to your specific business quality management requirements.
- Specify quality tests and actions for key points throughout Dynamics GP including in-process and finished goods materials management.
- Enforce quality rules and controls according to in-range and out-of-range test results.
- Easily track results on a continuous basis for benchmarking and quality improvement levels and goals.
- Reduce risk of error and costs by eliminating double entry of data.
- Accelerate timing associated with quality control procedures to improve production.

Item Number	Lot Number	Test Plan Status
WIP-NC-0001	MCD112307_L	Pass

Attribute	Action	Value
Lo: Attribute 1	Set attribute value to use	Approved
Lo: Attribute 4	Set attribute value to use def	36C
Lo: Attribute 1	Set attribute value to use	Quarantined

Item No.	Lot No.	Test Plan	Status	Expiration Date
100R-LG	64		Quarantined	7/6/2006
100-LG	65		Quarantined	7/6/2006
