

## Production Workbench

Improving Your Manufacturing  
Performance with *Merit Solutions*

### *Overview*

Production Workbench provides manufacturing users with a single, intuitive, information rich, location to manage their entire production process. The graphical interface provides a linear calendar of scheduled orders that gives you a high-level view of what products are being made when, and in which work centers.

### *Features You Need*

#### See The Big Picture

- Graphical calendar shows all orders, in all work centers, for any period of time.

#### Focus On Priorities

- Using the restriction criteria you can zoom in on just the information you need to see .

#### Access Information Quickly

- After selecting a manufacturing order, you have one click access to nearly every window in the manufacturing system with the relevant information already loaded.

*Graphical icons convey status information about Manufacturing Orders, along with additional columns of information as selected by the user according to the "View" button. Additional columns to the right display the manufacturing calendar. A selected view may be sent to Excel with one click of the Excel icon.*
