

Sales Controls

Increasing *Control* of Your
Operations with *Merit Solutions*

Overview

For Microsoft Dynamics™ GP users with customers that must have appropriate licensing or credentials to purchase controlled products, Merit Sales Controls enforces restrictions and conditions in the Sales Transaction Entry. With Sales Controls, customers are only allowed to order products that fit within the conditions of their authorization.

Features You Need

Increase Control

- Enables restricted sales for specific customers and products according to the customer's authorization maintained within Dynamics GP.
- Set controls by a combination of Customers, Items, Item Type, License Type and License/Authorization.

Manage Information

- Maintain Authorization Types and Customer/Product restrictions in one central point.
- Track the qualified professionals associated with the customer's license/authorization.

Maintain Compliance

- Used with Microsoft Dynamics GP Audit Trails operates in accordance with the requirements of FDA 21 CFR Part 11.
